Re: Eckstine Electric Co. Recommendation

Dear Rick:

The City and County of Broomfield's Wastewater Reclamation Facility has worked with Eckstine Electric on two major projects. The first project included the addition of a new generator building which included two-1100kw generators. The second project was our Phase 2 expansion of the Wastewater Reclamation Facility from a capacity of 8 MGD to 12 MGD. In both cases Eckstine Electric has proven to be an outstanding electrical contractor. We are very pleased with all aspects of the work and relationship we have with them. We continue to use Eckstine's services and appreciate their professionalism. I highly recommend Eckstine Electric.

If you have any questions or comments, please contact me at 303-464-5638.

Respectfully submitted,
